Powder Coating

### Texture

Fine Sand

### Loading

5 kgs

**FLOORWALL is a multi-functional piece of furniture combining a mirror and a coat rack. It features a large mirror with bars to store clothes and accessories. It's possible to use either as a single freestanding unit or as two wall-mounted items. The freestanding unit is easy to use from many sides, and it is light enough to move to where you need it any time. The separate pieces could be comfortably mounted on various walls from the entranceway to the bathroom.**

FLOORWALL 是以冰塊燈設計名聞全球的芬蘭設計師 Harri Koskinen，與 NakNak 合作，設計的一款立鏡及衣帽架的組合。此系列既可根據不同空間的使用需求分別作為獨立單元使用，亦可結合成多功能立鏡衣帽架，能隨時移動到需要的位置，舒適地擺放至家中的任何空間，如在玄關入口或浴室的牆上，收納衣物和各種配飾。

### Assembly

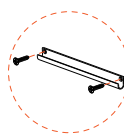

Coat Rack

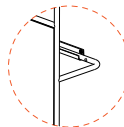

Screw the rack on the desire location, then put the cover on the screw.

Mirror

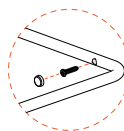

Step1

Screw the stand on the desire location.  
Step2

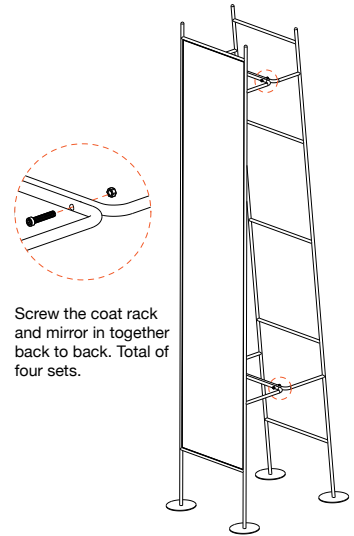

Put the rack onto the stand.  
Step3

Screw lower bar on the wall, then put the cover on the screw.

Combo

Screw the coat rack and mirror in together back to back. Total of four sets.
